

Cut out risks with OIRA

TOOL FOR HAIRDRESSERS

Introduction

OIRA is a web platform to help you perform health and safety risk assessments and to take appropriate preventive measures.

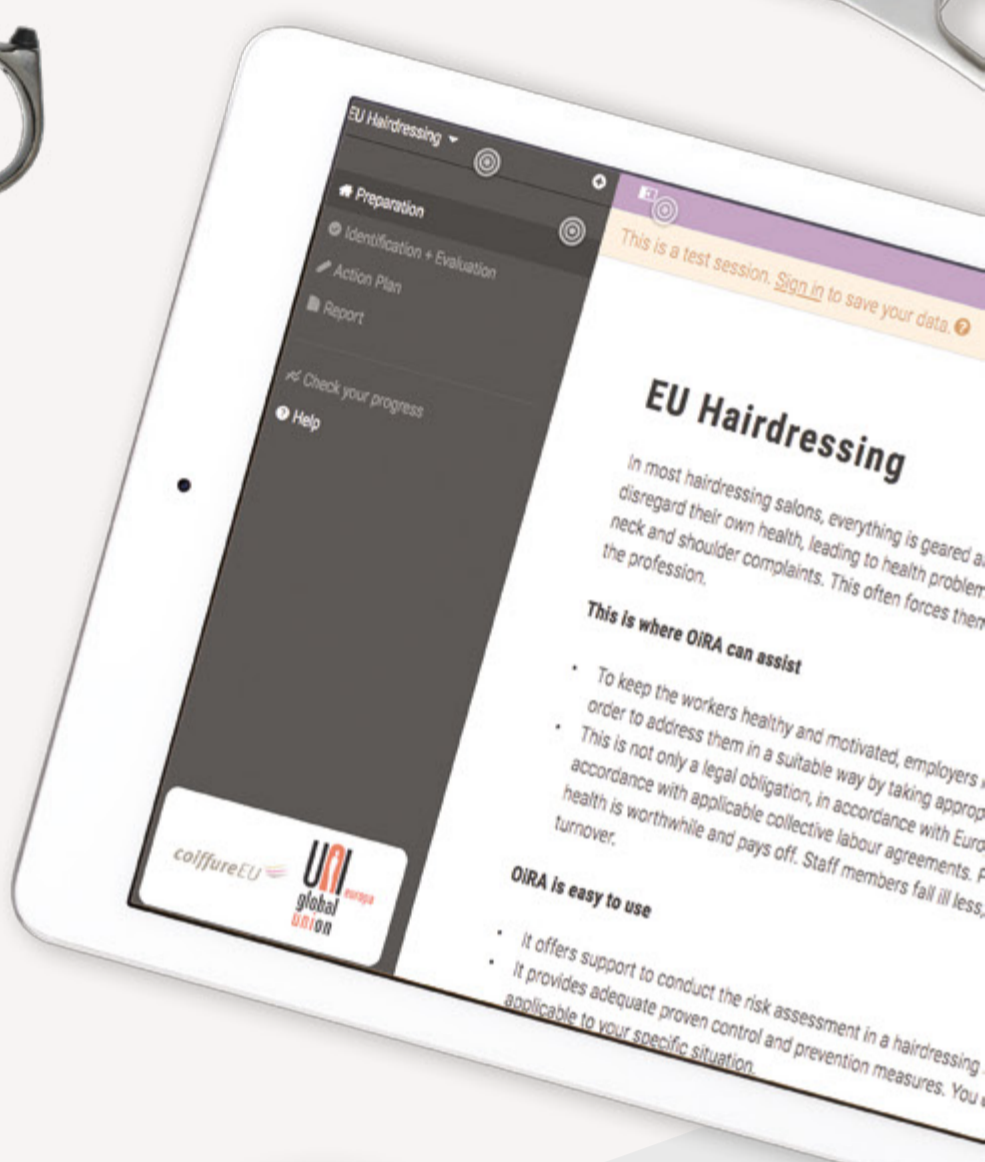

Free and easy to use

Solution oriented

Law changes updated

1. Preparation

Organise and coordinate your risk assessment in your salon, as well as ensuring employees' participation.

2. Identification + Evaluation

Identify hazards and problems in your everyday work and work environment by answering the risk statements in each module.

See some examples below:

Hairdressing cosmetics

Are all cosmetics used and stored suitably and safely?

Skin protection

Do staff wear appropriate gloves when necessary?

Layout & maintenance of the salon

Does the salon have a non-slip floor?

Furniture & work posture

Are the hairdressing chairs height-adjustable?

Added risks (by you)

Would you like to add your own risks?

Personnel & prevention

Are pregnant women's needs taken into account when organising work?

Mental health & wellbeing

Can breaks be taken after long periods of continuous work?

Hairdressing equipment & clothing

Are the scissors ergonomic and nickel free?

3. Action plan

Generate your personalised prevention plan based on your collective risk assessment.

Some examples of simple tips to follow for a safer and healthier workplace:

Provide adequate protective gloves and train staff on their correct use.

Purchase only dust-free hair cosmetics.

Ensure regular cleaning and disinfection of scissors and other tools.

Use height-adjustable roller stools.

Train your staff on the correct use of cosmetic products and chemical agents.

Remove hair on the floor after every cutting session.

Ensure staff can take sufficient breaks.

4. Report

Download your report with an overview of risks and measures and have it available as required by law.

With OIRA your risk assessment is

Confidential

Always accessible

Always updatable
